INDORSED BY GRANGE.

tion in Payor of National Aid

The farmers are a class conservative in their views, and slow to move. They do their thinking first and their talking afterwards. For some reason the farmers of this country have been reading and thinking about road improvement and the best way to secure that much desired result. They have considered local taxation and labor as the fream of building good roads, and have age are many chapters as romantic as found this long-tried plan to be a failure except in limited localities. They have studied the state-aid plan, and offered the great advance made under the land vicinal transport of the British peerson in the first vessel that passed through the Suez canal. The craft was known as the Moning, and although of American construction was sailed under the British flag. served the great advance made under it and vicisultudes as that which gives the Finally they have been studying the life story of the third and present Lord question of national aid, and they ap-

ment has expended vast amounts of

National Grange favors the inauguration of a national policy for the improvement of highways, and the appropriation by congress of a liberal amount pounds in his pocket, he served for a married daughters, borothy actions and made his way to America.

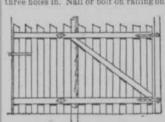

Ex-Gov. A. S. Bushnell, of Springfield, O., recently gave a dinner party at his home to his family—including his two married daughters, with their husbands, bill embody, with some modifications, tempted Fortune as a nurseryman. the essential features of such a policy. A little later he wearied of the

highways. Also that our legislative adventurous months traveling through committee be authorized to gather all this country with a company. From the information possible regarding the road laws and systems of road building we find him playing the leading part in in the several states, and that such information be published in such form as the committee deems best."

These resolutions will set in motion a vast force that moves slowly, but irre sistibly; for it must be remembered that the National Grange usually gets what it goes after, whether it is a state freight rate law, the creation of a national de-partment of agriculture or the pussage of an oleomargarine bill. This is by far Brownlow bill has yet received.
